Reflexology induces a state of balance and harmony, working on precise reflex points on the feet which correspond with all body parts, organs and nerves. Reflexology revitalizes energy and rebalances the whole system, working with the meridians of the body through reflex points of the feet. It has been known to help relieve pain through opening the energy lines of the body.

Reiki is an energy healing technique that promotes relaxation, reduces stress and anxiety through gentle touch. Reiki practitioners use their hands to deliver energy to your body, improving the flow and balance of your energy to support healing.

*** MASSAGE**

A massage session begins with Reiki of the head to get attuned to the body. Pressure will vary depending on the wishes of the client. Pressure can vary, anywhere from Swedish, light touch; to Deep Tissue, more firm pressure and finally to Sports, a very firm pressure. Any or all of these pressures can be used during any one session. Every massage session includes Reiki and Reflexology.
