Gaylord Palms "Ice" Christmas Exhibit December 8, 2026

ICE!

ICE! features elaborate scenes sculpted from 6,700 massive blocks of ice, weighing in at a total of 2 million pounds.

Traveling over 6,000 miles from Harbin, China (known as "Ice City"), 40 artisans use their master sculpting skills passed down through generations to carve ICE! over six weeks

The carvers use chisels, chippers, tongs, handsaws, grinders, and even chainsaws to bring the experience to life. Some artisans have collected custom-made tools to perfect the irregular shapes and achieve the highest level of detail

The artisans follow a 300-page design book filled with hand-drawn, to-scale sketches and blueprints to create every sculpture featured throughout the 19,000-square-foot frozen attraction.

Once the completed masterpiece is open for guests, a few artisans stay onsite at the exhibit to preserve the icy designs and perform daily, live sculpting demonstrations to showcase their craft.

Sarasota Jungle Gardens February 11, 2027

Flamingos

Animal Shows

Reptiles

Sarasota Jungle Gardens, affectionately also known as just “Jungle Gardens”, is home to more than 200 native and exotic animals including birds of prey, many different species of parrots and macaws, primates, small mammals, dozens of snakes, lizards, iguanas, alligators, crocodiles and other reptiles – many of them rescued or donated – including Florida’s noted pink flamingos. All nestled within 10 acres of lush tropical landscaping connected by winding jungle trails.

The fascinating flamingos are a favorite among visitors who travel from all over the world to see the long-legged, pink-hued wading birds. The flamingos are not shy and often greet guests personally, sometimes face to face. You might catch them splashing, flapping, and strutting around. One may hand-feed them or view them strolling by. Other times, one might see the joy and thrill in a child’s first wide-eyed encounter as they interact with the flamingos, egrets, ibis, ducks, pelicans, and other wildlife just passing through.

Some other noteworthy features of the Gardens include daily bird and reptile shows that are as educational as they are entertaining. The after-show question and answer time and a wide variety of one-on-one animal interactions, including holding and posing for pictures, provide the reason many folks come back year after year.
